

Missouri Department of Transportation Job Description

Job Title: Intermediate Bridge Inspector

Title Code: R05401

Salary Grade: 8

Exemption Status: Non-Exempt

Supervisory Responsibilities: None

District/Division: District Offices - Maintenance / Bridge Division

Effective Date: 07-01-2022

Replaces (Effective Date): 05/01/2022

General Summary

The Intermediate Bridge Inspector performs federally mandated inspections on state and locally owned bridges and culverts within the district (statewide for Bridge Division), including planning, scoping, maintenance work planning, and providing guidance to the region's bridge maintenance personnel. Responsibilities are performed under moderate supervision.

Minimum/Required Qualifications

Bachelor's Degree in Engineering from an ABET-accredited college or university curriculum.
Two years of structural experience in highway or transportation engineering.
Successful completion of a range of motion examinations and a medical-physical examination.

Special Working Conditions/Job Characteristics

Job requires regular travel within the district.
Job requires occasional (regular for Bridge Division) statewide and out-of-state, overnight travel.
Job requires exposure to physical hazards, health and safety risks, and/or adverse or otherwise undesirable characteristics in the environment.
May require operation of vehicles to plow snow and spread ice control materials.

Examples of Work

1. Schedules and assists the Team Leader in performance of safety inspections on bridges and culverts to evaluate maintenance needs and assign condition and appraisal ratings.
2. Assists the Team Leader in performing bridge and culvert inspections, including routine, in-depth, fracture critical, special, and underwater.
3. Prepares reports and correspondence, maintains and updates inspection-related data in the department's Transportation Management System database for all structures, and collects bridge-related information on new locally owned structures.

4. Serves as a technical resource for bridge-related issues on locally owned and state owned structures.
5. Assist in performing Bridge Rehabilitation Checklists for upcoming bridge construction projects.
6. Communicates and coordinates with local public officials regarding inspections, inspection findings, and inventorying of bridges and culverts. Communicates with Bridge Division, Maintenance Division, and district personnel to explain maintenance needs or inspection findings on state owned structures.
7. Updates bridge maps, files, and computer records; monitors load posting compliance on state and locally owned bridges and culverts; monitors progress on resolution of critical inspection findings.
8. Assists the District Bridge Engineer in developing the district's Bridge Maintenance Plan.
9. Performs post-incident bridge safety inspections, including determining severity of damage and ensuring follow-up actions such as load restrictions and bridge closures are implemented.
10. Assists with the inventory and inspection of other structures which are not part of the National Bridge Inventory, such as retaining walls and sign trusses.
11. Performs other responsibilities as required or assigned.

The Missouri Department of Transportation promotes an equal opportunity workplace that includes reasonable accommodation of otherwise disabled applicants and employees. Please see your manager should you have any questions about this policy or these job duties.
