Reflective Door Video

Description

When working at night, workers take every precaution they can to be sure the traveling public can see them. The Reflective Door uses reflective tape on the door jambs of the work trucks to help make them more visible.

Benefit

Higher visibility when a truck door is open will improve the safety of the person exiting the vehicle.

Materials and Labor

The material costs are \$9 for one roll of High Intensity Retro Reflective Tape with about one hour of labor to install.
